

University Catering

Fresh and sustainable – something different every day

Every day, around 30,000 guests come to the canteens, bistros and coffee bars of the “Werk”. Most of our establishments can be found directly on the university premises. The meals are provided at discounted prices for all students, and there is a wide selection of dishes. Regular street food events round off the daily offering of fresh meals – which also includes vegetarian and vegan options. You will love it.

An overview of what we provide

- eight canteens, 18 bistros and coffee bars, as well as the Italian café “piccolo w”
- our menus, which change every day, always include at least one vegetarian option – sometimes with certified organic ingredients
- a varied salad buffet in each canteen
- special events at alternating locations, e.g. street food, Asian specialities, burger events, etc.
- regular seasonal specialities (“Pumpkin week”, “Asparagus time”)

Cashless payment

All our facilities are set up for cashless payments using your student ID card or your “mensa” card. You can use the card-reading device at the entrance to the canteen to check whether you still have enough money on your card.

Accommodation

We have a diverse range of accommodation options, all reasonably priced and close to the university

Living space is in short supply in Cologne, and students soon become very aware of this. For this reason, many first semester students begin their search for accommodation long before they start their degree course.

The “Werk” provides accommodation to over **5,070 students in Cologne in 91 different** residence halls. The range of options is diverse, and all are reasonably priced and close to the university.

We provide three types of accommodation – dormitory rooms on a corridor with a shared kitchen and bathroom, single rooms in a shared flat (2 - 7 persons), or apartments which include a kitchen area and a bathroom with shower.

The average rent is EUR 262 per month.

Rent is all-inclusive, it includes the costs of electricity, heating, other ancillary costs and flatrate internet. The “Werk” provides special residential accommodation for students with children, those with a disability and those who suffer from a chronic illness.
